NCSA Video Tips:

- * Most common digital files: .mpg, .mpeg, .mov, .wmv, .avi, .mod, .vob, .vro
- * When mailing footage please use FedEx or UPS this allows you to track the status of the package.
- * When attempting to record "time codes" use the "display" button on your universal remote to access a running clock on either your monitor or physical DVD player.
- * When logging footage, attempt to concentrate on your "highlight" caliber plays. College coaches will only want to see the best of you. Average plays should be reviewed during a full game evaluation, at a later point in the recruiting process.
